Conbraco continued that program in 2012. Conbrac is presently exploring additional opportunities to reduce the volume and toxicity of hazardous wastes generated at the subject facility.

#### **8. Changes in Volume and Toxicity of Waste Achieved During Year in Comparison to Previous Years**

The waste volume generated at the subject facility in 2012 increased because of an increase in sales, as compared to the volume generated in the previous calendar year. The waste toxicity was similar.
